It is bolleved that the visit of Chanman Wasten of New York to Washington was made to confer with the President as to the best time to hold the New York State one orst time to note the New York State Convention to select delegates to the National Convention. WASHINGTON, Nov. 15.-It is possible that Mr. Carlisle may not receive on the first ballot so large a vote as some of his friends predict. It is also possible that both M: Randall and Mr. Cox may receive a larger vote on the first ballot than some of Mi Carlisle's friends are willing to conced, bu that Mr. Carlisle stood at the head of th sterday there can be no doubt. Ilvery effort to embarass him by misrepresen tailon will in the end strengthen him

Some of his opponents have succeeded 1 misleading certain new members of text us tariff conviction by cheulating the report that Mr. Carlisle is an advocate of the abolition of the internal revenue sysm, and the members thus misguided have been disposed to yete for Mr. thinking that he was opposed to abolishing the whisky and tobacco tax. Within a few lays some of the members referred to have een surprised to learn that it is Mr. Cox and not Mr. Carlisle who favors wiping cut all Internal taxes. In a carefully proparepeech made in the last Congress. Mr. Co xpressed himself as follows:

"I favor epenly and boldly the entity elition of the emilitions, corrupt and spring system of the Internal received. It is not necessary to say that its others at corrupt, it is the system, away with it; every speek of it on our body politic is a circer. I am willing to need this issue at the polls, and woo be to that member who unholds it, to overfill our treasury that the greedy may riot in the people's hard- ara d means collected by its officials.

KNAVERY?

Some of our competitors are constantly try ing to mislead the insuspecting by quietly whisporing in their ears, the sophistical they ry, that here expenses necessarily enhance rather than cheapen merchandise. But this is fallacious, bosumes all depends on the amount of husiness done in proportion to expenses.

LINN & SCRUGOS retail more goods tha all six dry goods atores in Decatur,

They are not obliged to pay THE RENT of SIX STORICHOOMS. Nor the INSURANCE and TAXES on SIX stocks of goods. Nor as much for carck life as these six stores would aggregate. But more than all, LINEA SIMITORS are not obliged to support EIGHT or TEN families. Nor divide the profits between KIOHT or TEN PARTNERS—as is the case with these SIX STORES—all of which would make a difference of twenty-five or thirty thousand dollars a year in layor of LINEA SERVADS.

But this is not all. Linn & Schudgs, in view of their large purchases from first hands, save from twenty-five to thirty thousand dollars more a year, which added to the amount savot in their expenses, will make a difference of FIFTY or SIXTY THOUSAND DOLLARS A VEAR; which innount Linn & Schudgs save to those who purchase their goods of them. Besides, another important item, is a shrink-or of values in goods, which would not be as

reat in one as in six stores.

It is easily understood how one furmer, cul-tivating 386 acres of land, can produce greater cealls than can six farmers, such cultivating 50 acres of land; and this represents our case oxactly. And when we assert that those who do not buy goods of an stand with the class do not buy goods of an stand with the class do not buy goods of us stand with the chass who pury lifty or skyly thousand dollars a year note to: their goods than sold by us, we sim-ply utter what we also prepared to prove.

The Sewing Machine Project. Mesars, P. Loob, Jno. K. Warren and J. M. Clokey, members of the committee appointed by Mayor Chambers to solicit stock to the amount of \$100,000 to \$125,000 in the Fairbanks sewing machine factory, were out yesterday and to-day calling upon our local capitalists and business men. The committee do not expect to raise the stock within a few days, but they feel that the factory will be a good thing for Decatur, and are in a position to show that those taking stock in the enterprise will be investing their money wisely and well. Many of our citizens have already subscribed liberally toward the \$100,000 of capital stock required for the location of the wagon factory here, but the same parties will no doubt give the sewing machine project their substantial aid. The benefits of the sewing machine factory ought to be clearly understood by all interested. It will make business lively, bring more people to the town, and each month many thousands of dollars will be paid out to the employes who will spond most of it right here in our midst. The members of the soliciting committee are quite cheerful, and before the week is past they expect to have a large part of the stock subscribed.
